The new live stock rates on cattle from Chicago to Wheeling and Bellaire, are 35 cents per 100 pounds, and 22½ cents on hogs.

The Fairmont Virginian seems to be under the impression that Walker will beat Kenna for Congress this time in the Third district.

Spexcra Dayton, of Philippi, is recommended as a candidate for Circuit Judge (under the Constitutional amendment) in the counties of Barbour, Preston, Taylor, Randolph and Tucker.

A very decided and growing interest is manifested among our West Virginia farmers of the laterior in sheep raising. There will be a meeting of the farmers of Ritchie county, on the 20th of April, for the purpose of organizing a county Wool Growers' Association in that county. This looks like business.

The Parkersburg Scatinel of Saturday informs us that Judge James Morroe Jackson, of that city, is a "Greenback Democrat." Does the editor-refer to him when he says in the same issue:

"The right hand should not know what the loft doeth, saith the Judge, as he writes a greenback speech with ones hand and clips a few coupons with the other."

Thousands of emigrants from Europe are going through to the West Virginia, it would be a ten-strike.—

West Virginia is a pretty old country as compared with some of the young and propulous States of the Union. It was a part of the Old Dominion until 1833, and as such enjoyed the full benefits of the uninterupted supremacy of the Democratic party from the outset. It never prespered, however, under the Democratic party from the outset. It never prespered, however, under the Democratic party from the outset. It never prespered, however, under the Democratic party from the outset. It never prespered, however, under the Democratic party from the outset. It never prespered, however, under the Democratic party from the outset. It never prespered, however, under the Democratic party from the outset. It never p and there throughout the state. The Democracy got possession again in 1870, and the old stagnation hangs like a pall over the State. It is the same old dark tions Committee, has succeeded in having shadow of slavery, secession and Demo-cracy (three names but one thing), that has always frightened away immigration closely connected with the anonymous from our borders.

If the people of West Virginia want immigration from the North and from Europe, let them elect men to office who will provide (1) for a thorough geological and mineralogical survey, and (2) who will employ some effective agencies, both in the North and in Europe, to make known the advantages of the State to the world.

t buildozing him into voting for Donnelly.
When it is known that Donnelly wrote a letter to the Speaker of the House asking such an examination, which he had no right to demand, and when the ardent lead of Masning throughout the entire controversy is remembered, the conclusion cannot be regarded as strained that he appears to have more than even a Bourbon Democratic interest in the Minnesota contestant. It might not be the right thing to assert that Mr. Manning is acting as if he were a paid attorney of Donnelly, but should such an idea arise there may be occurrences to account for, if not to justify it. Manning has probably less feeling against Springer than tender regard for the Minnesota martyr. Mr. Springer was in the chair when Manning arose to offer his resolutions, when he retired in favor of Cox, who presided during the disposal of the question.

Ackler's return. Keep Democratic politics in the back ground, where the world cannot see them, among the worn out trumpery of the days before the war, and, perhaps, after while the tide of immigration will not rush hurriedly and affrighted past our borders as i

The Exodus Committee, which was cured a small advantage, but in a general way the position retains pretty good form and holders exhibit little anxiety to force shared into existence with a grand flourish of Democratic trumpets two months ish of Democratic trumpets two months ago, practically closed the examination of witnesses to-day. There will be a few persons for examination and re-examination, but the daily meetings are over, the lights are out and the curtain is rung down on a serious Democratic farce. THE Chicago Times of Saturday says that lights are out and the curtain is rung discover good reason for purchasing wool as an article for investment; yet those who own stocks have found nothing so discouraging as to lead them to making a sacrifice, and they find no mean argument for a diaplay of firmness in the advices continually coming to hand from primary sources. The prospects for consumption do not, however, appear to be quite so good as a short time ago, and developments in this line are awaited with some interest. All manufacturers have large contracts to fill most certainly, but they have also bought material against these engagements, and the additional calls for goods are not up to expectations. Prices too are commencing to be spoken of as unremunerative, and it is further hinted that clothiers. In some cases, are seeking opportunities to evade their contracts. It is possible that these features may not amount to much and only receive prominence through the dell condition of the market at the moment, but it is certain that the feeling of buyers is of a more cautious character at present.

Democratic members of the committee, including the Chairman, profess to be glad that it is over, because they will be relieved from daily attendance at the meet ings which they have suffered for weeks, but the truth is, they are glad to get rid of a subject which has been a serious disappointment to them in the results. Anothe reason for discontinuing the examinations is the fact that the fees and milesge for witnesses have been drawn from the Sen-ate contingent fund, and that fund is now
